Central Airmotive, our sister company, specializes in Original Equipment Manufacture interior furnishings for cabin-class aircraft. In addition to having the world's largest inventory, Central Airmotive features many hard to find parts like air vents, lights, cup holders and more that can save you time and money!

www.avfab.com

Aviation Fabricators is a Federal Aviation Administration - Parts Manufacture Approval (FAA-PMA) facility specializing in the design and production of interior products for the Corporate Aviation community. Many production items are also approved under Supplemental Type Certificates (STC) when necessary. We also welcome the opportunity to design and obtain "single-use" approval to custom-build a specific product for a customer who has unique needs.
