

GUARDIAN SEAT

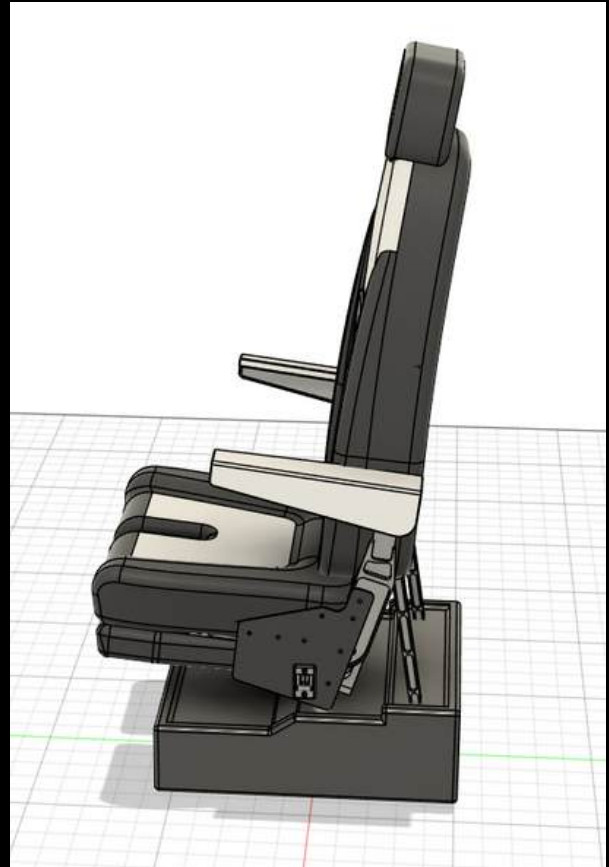

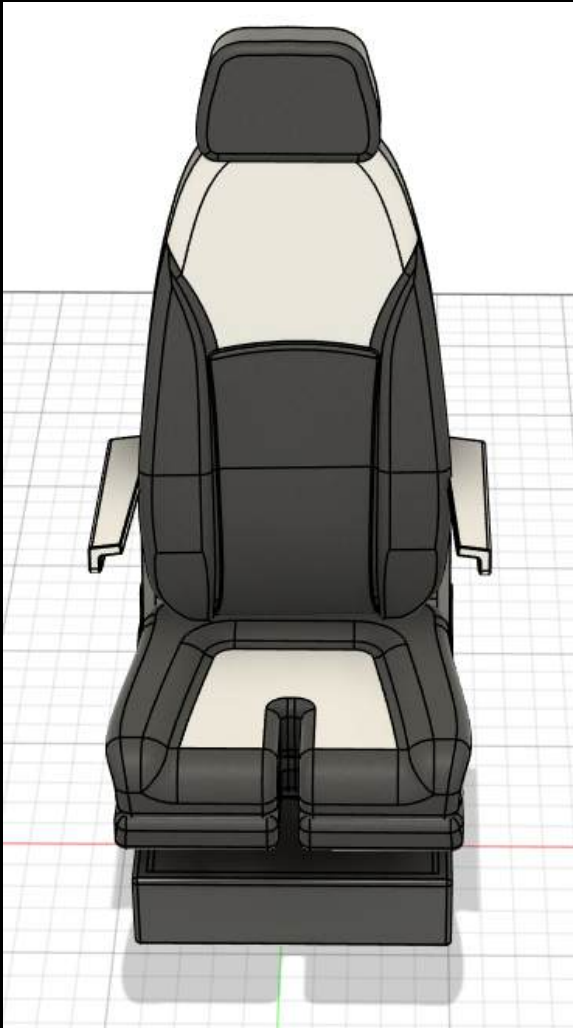

FOR THOSE WHO GUARD THE SKIES

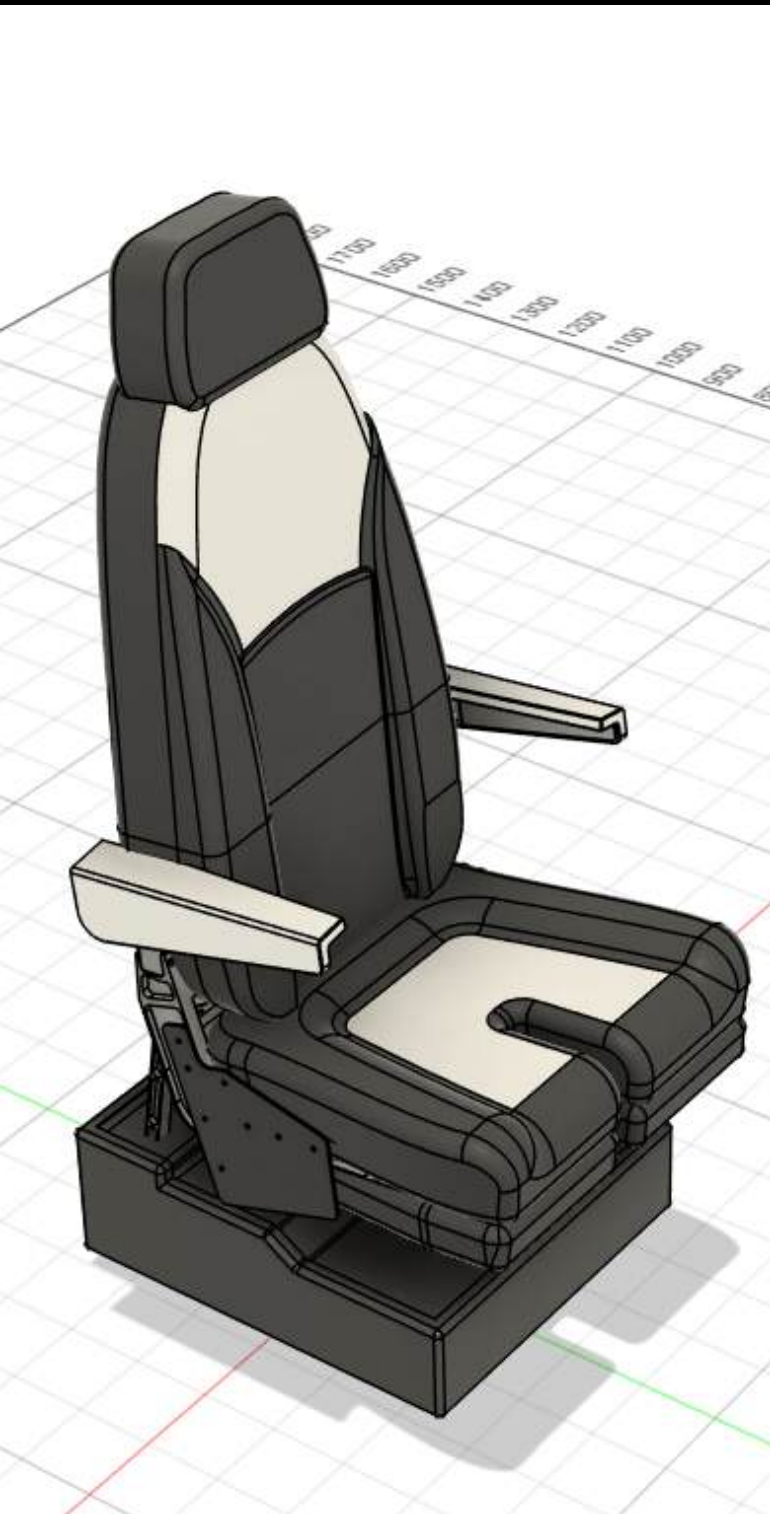

MISSION-READY. FOCUS-DRIVEN. BUILT TO ENDURE.

The Guardian Seat is designed for critical intelligence, surveillance, and reconnaissance (ISR) operations. Engineered to keep you sharp so your focus never wavers.

Built with Oregon Aero™ foam, the Guardian Seat reduces fatigue, enhances comfort, and stabilizes your posture – no matter the mission duration.

SENTINEL SEAT

FOR THOSE WHO FLY AS SENTINELS
OF FREEDOM

avFAB 
AVIATION FABRICATORS

LIGHTWEIGHT, COST EFFECTIVE, MISSION BUILT

The Sentinel Seat is the lightest and most cost effective ISR focused set on the market. Designed with discipline, the Sentinel Seat delivers mission readiness without excess weight or cost.

Chosen by leading ISR operators and OEMs, the Sentinel Seat has now flown over 100 million miles as sentinels of freedom have defused threat after threat.

RESPONDER SEAT

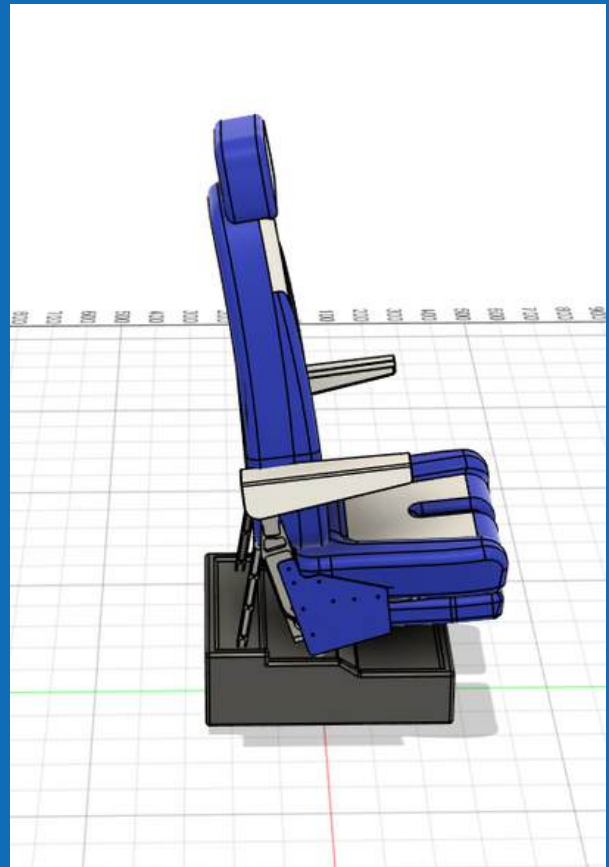

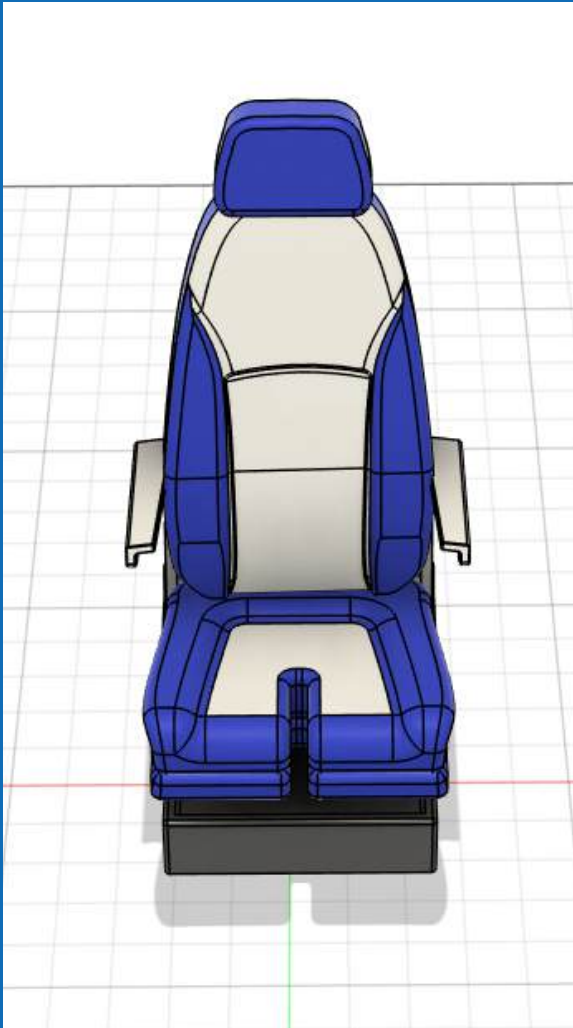

ENGINEERED FOR THOSE WHO SAVE
LIVES

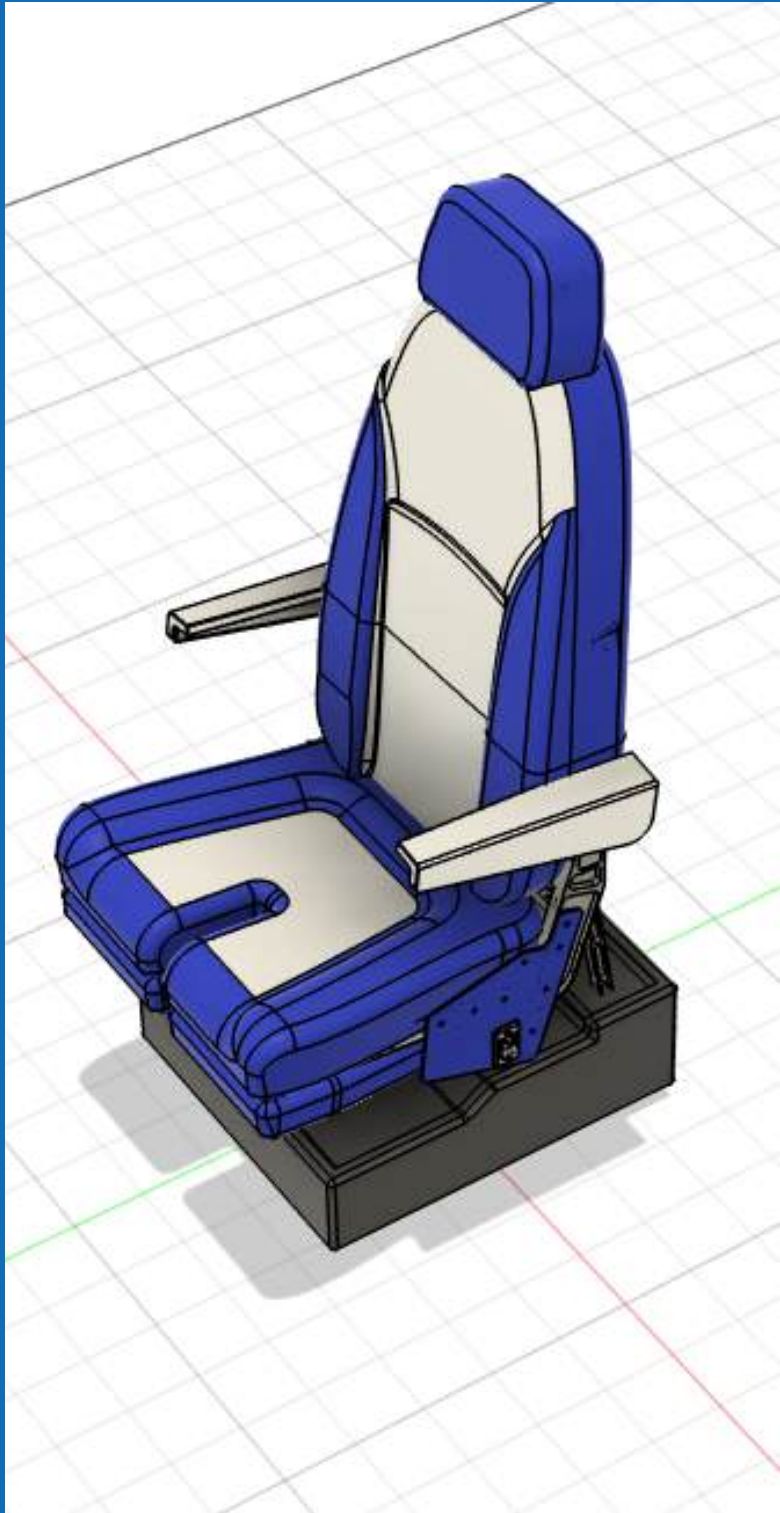

BUILT FOR MISSIONS THAT DEMAND FOCUS AND ENDURANCE

The Responder Seat is purpose-built for Medevac attendants, engineered with features and comfort that allow for occupants to fully focus on the patient.

Featuring Oregon Aero foam construction, the Responder Seat is built for high-focus operations by reducing fatigue and increasing occupant stability on even the longest flight legs.
