UPGRADE CATALOG

Model: 90 Series

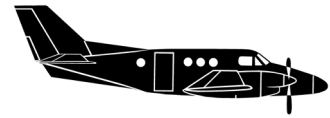

## AvFabulous Arm Ledge Table System

### Options:

- Customize Color and Finish

AvFab's Arm Ledge Table System allows for you to update your tables and side panels to that of the new style King Air C90GTi. Kit includes new style tables and sidewall panels that incorporate the integrated outboard armrest rail newer model King Air's maintain. Replace your older style recessed tables and outdated side panels with something that's more functional, robust, and sleek in appearance.

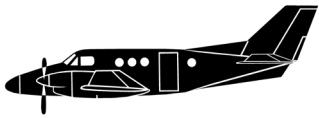

## Regal Pleated Window Shades

### Options:

- Gray, Olivine, Tan, Limestone

The Regal Pleated Window Shades have become one of our most popular products as they not only modernize the King Air cabin, but they can also be left in the closed position at all times, including while the airplane is parked on the ramp, unlike the OEM polarizers. The difference in cabin temperature with the Regal Pleated Window Shades is remarkable. The shade material itself can be changed under 30 seconds. Each set comes with a 5-year warranty which is unmatched in the industry.

## Lateral Tracking Seat Base

---

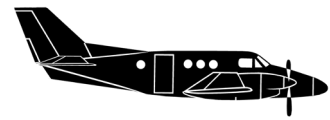

### Options:

- Paint Color

In the event that your seats don't laterally track, AvFab's lateral tracking seat base modification gives your seats the ability to do so. The modified seat bases slide toward aisle 3.5", increasing head and shoulder room. This is a simple, effective modification to improve passenger comfort in your 90 series King Air.

## Clearview Headrest

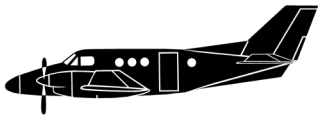

---

**Options:**

- Hidden or Winged

AvFab's Clearview Headrests are an economical way to improve your line of sight in the cabin by removing the bulky OEM headrests, and opening up the cabin to provide a more spacious feel. There is no modification required to make the installation other than sculpting the foam to accommodate the new headrest. There is no weight change when making this conversion.

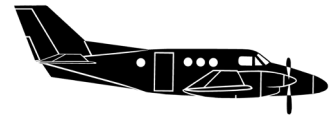

## 1-Place Side Facing Seat

### Options:

- Underseat Storage
- Ice Tank

AvFab's 1-place King Air Side Facing Seat is a more modern and comfortable alternative to the OEM seat because of the larger seating surface. The seat allows for the seat directly fwd. of it to recline when it is equipped with lateral tracking capabilities. The included shoulder harness adds a margin of safety over the OEM seat.

## Aft Jump Seat Kit

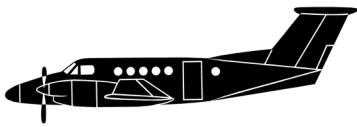

### Options:

- Armrest
- Upholstery

AvFab's STC approved King Air 90 RH Aft Jump Seat Kit allows for an additional seat in the baggage compartment. It has the ability to fold up out of the way when not in use to make full use of the baggage compartment.

Model: 200 Series

## AvFabulous Arm Ledge Table System

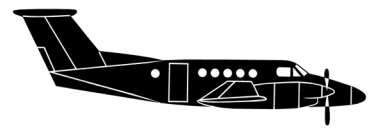

### Options:

- Customize Color and Finish

AvFab's Arm Ledge Table System allows for you to update your tables and side panels to that of the new style King Air 250. Kit includes new style tables and sidewall panels that incorporate the integrated outboard armrest rail newer model King Air's maintain. Replace your older style recessed tables and outdated side panels with something that's more functional, robust, and sleek in appearance.

## Regal Pleated Window Shades

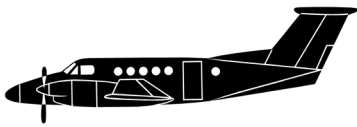

---

### Options:

- Gray, Tan, Olivine, Limestone

The Regal Pleated Window Shades have become one of our most popular products as they not only modernize the 200 series cabin, but they can also be left in the closed position at all times, including while the airplane is parked on the ramp, unlike the OEM polarizers. # Royal Side Ledge Table System

**Options:**

- Customize Color and Finish

Make your 300 Series King Air look like a brand new 360 with AvFab's Royal Side Ledge Table System. Complete with factory styled cupholders, deployable tables, sculpted side wall assemblies, mounting brackets, and detailed instructions. This is part of the Monarch Upgrade.

Model: 300 Series

## Regal Pleated Window Shades

### Options:

- Gray, Tan, Olivine, Limestone

The Regal Pleated Window Shades have become one of our most popular products as they not only modernize the 300 series cabin, but they can also be left in the closed position at all times, including while the airplane is parked on the ramp, unlike the OEM polarizers. The difference in cabin temperature with the Regal Pleated Window Shades is remarkable. The shade material itself can be changed under 30 seconds. Each set comes with a 5-year warranty which is unmatched in the industry. All factory new King Air 360's have pleated window shades. This is part of the Monarch Upgrade.

# Crown Headliner

---

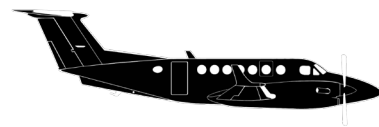

**Options:**

- Customize Color and Finish

The Crown Headliner is the finishing touch to update your 300 Series interior. This composite overhead panel improves appearance over the original 300 series headliner. It finishes the look of the new 360 and completes the Monarch Upgrade.

# The Monarch Upgrade

---

## Options:

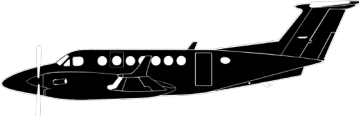

- Awesomeness Included

To complete the look of the new King Air 360 AvFab has created the combination of the Royal Side Ledge Table, the Regal Pleated Window Shades, and the Crown Headliner. Intended to make any 300 Series King Air look like a brand new King Air 360.

“Stunning!” – Kevin Carson, King Air Academy

“Very nice, AvFab. Looks great!” – Tom Clements, Author, The King Air Book, Vols. I & II

# Clearview Headrest

**Options:**

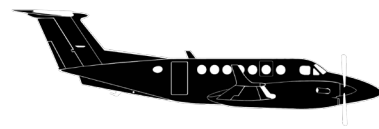

- Hidden or Winged

AvFab's Clearview Headrests are an economical way to improve your line of sight in the cabin by removing the bulky OEM headrests, and opening up the cabin to provide a more spacious feel. There is no modification required to make the installation other than sculpting the foam to accommodate the new headrest. There is no weight change when making this conversion.

Model: 300 Series
