

Beechcraft Baron & Bonanza Stretcher

Baron / Bonanza Stretcher

Baron / Bonanza Stretcher

Description: This stretcher kit provides a Beechcraft Bonanza 36 or Baron 58 operator with the option of transporting an ill or non-critical patient. The kit was designed as an economical alternative to complete medevac systems, which makes it ideal for operators who don't need critical care medical equipment. Kit includes stretcher base and cover, portable litter, mattress, mattress cover (conforms to FAR 23.853 horizontal flame test), restraint system, installation instructions, and weight and balance data, etc.

Models: Beechcraft Bonanza 36, A36, A36TC, B36TC, & G36
Beechcraft Baron 58, 58A, 58TC, 58TCA, & G58

FAA / STC: FAA SA00068WI
EASA 10052075

Approval: Federal Aviation Administration Parts Manufacture Approval, PMA, and Supplemental Type Certificate, STC, (eliminating the need for field approval).

Features: Litter units (Ferno 12-1 folding litter supplied for all models except G series, G Series are supplied with Ferno 1400 series folding litter) feature an adjustable backrest and durable, washable covers. All materials conform to FAA flame testing standards. Restraint system allows for patient to occupy the unit during all phases of aircraft operation. Stretcher base, mattress, mattress cover, and restraint system weighs 29.0 lbs. Ferno 12-C litter weighs 21.0 lbs, Ferno 1400 series litter weighs 25 lbs.

Installation: No airframe modification is required on non G-Series other than removing existing seats and furnishings from the desired location and mounting the new stretcher assembly. G-Series aircraft require the removal of the sidewall table and shrouds to provide adequate clearance for stretcher kit.

Lead Time: Stretchers are normally in stock and available for immediate world-wide shipment, however, fluctuations in demand may cause up to a 30 day delivery delay.
